Experience

Data Engineering Intern, FlickDone

Jun 2025 – Present

Cipher Schools

- Built and automated Python-based pipelines to convert raw unstructured data (text, images, layouts) into high quality, LLM-compatible training datasets.
- Worked closely with the CEO to translate real-world GenAI product requirements into scalable data engineering workflows.
- Processed Braille-to-text corpora and layout-heavy document files for generative model readiness.
- Ensured data confidentiality, integrity, and readiness for production-level model training and deployment

Projects

Covid-19 Prediction Model | Python, Scikit-learn, Pandas

July 2024 - Aug 2024

- Created a machine learning model to forecast the Covid-19 progression based on variables like active cases, mobility trends, and government interventions.
- Applied libraries such as Scikit-learn and Pandas for data processing and model training, ensuring reliable prediction accuracy
- Delivered valuable insights to assist public health decision-making and future trend forecasting.
- Github Repository Link: <https://github.com/jyothir-369/Covid-19-prediction-using-AI-ML>

Movie Recommendation Using AIML | Python, Scikit-learn, Pandas

Oct 2022 - Dec 2023

- Developed a platform highlighting modern construction techniques, resources, and industry tools.
- Focused on a dynamic user interface to present real-time data with seamless interactions.
- Incorporated Node.js for server-side logic and MongoDB for structured data management, enabling flexibility and future growth.
- Github RepositoryLink: <https://github.com/jyothir-369/Movie-Recommendation-Using-AIML>

Certificates

Python Programming Certification

June 2023

Guvi — <https://www.guvi.in/share-certificate/1E03155WJ3396IoA68>

Certificate of Internship in Social Initiatives

June 2024

SAHARA NGO

Technical Skills

Languages C++, Python, JavaScript

Technologies/Frameworks: HTML, CSS, Bootstrap, Node.js, React.js

ML/AI: Scikit-learn, Pandas, NumPy, PyTorch, HuggingFace

Tools: Git, VS Code, SQL, Jupyter

Core Competencies: Data Structures and Algorithms, Casual Reasoning (introductory), Problem-Solving, Responsive Web Design

Education

Lovely Professional University Punjab

2022 – 2026

Computer Science and Engineering — CGPA: 7.00

Jalandhar, Punjab

Navya Jyothi Junior College

2020 – 2022

12th with Science — Percentage: 64%

kallur, Telangana

TS Model School

2018 – 2020

10th with Science — CGPA: 10

Tekulapalli, Telangana
